WE ARE THE BLACK ANGELS

The association DHK Baník Most has existed since 1997. Currently, two legal entities take care of the running and needs of the club, namely Ladies' Handball Club z.s. and its 100% subsidiary DHK Baník Most, s.r.o.

The association DHK Baník Most is headed by the chairperson of the association Pavla Chotěborská, the executive committee of the association includes Mgr. Kateřina Poláková and Ing. Radek Madera. At DHK Baník Most, s.r.o. is the manager of Pavla Chotěborská, and as already mentioned above, it is fully owned by a registered association.

Handball as a sport has long-standing roots in Mostek. The origins of handball go back to the twenties of the last century. Handball in the form we know it today began to be played in 1953, when the Baník Most handball club was officially established, which signed up to the Handball Association with international rules and the unified name HANDBALL.

Baník Most connects its first beginnings with the Secondary Vocational School in Most, where it builds the first playground. Adults play mainly in the second league, teenagers oscillate between the 1st and 2nd leagues. In the 1970s, the section expanded to include women's handball, which until then was played at the 3rd and 7th elementary schools. The section starts with female students who are transitioning to juniors, later the women's team also enters the competition.

With 350 members, the Baník Most handball section becomes one of the largest sections in the then Czechoslovakia. In 1983, the women's team in Běla pod Bezdězem, led by Mr. Chlasták and Mr. Sadílek, wins promotion to the II. league, where for the next few years he is at the forefront of the table (mainly under coach J. Zikud). Women are continuously replenished from their own resources. The youth plays in the First League (mainly under coach Z. Ondráček), the students regularly place themselves in the medal positions in the Prebors of the Republic mainly under coaches (M. Pomykal, L. Maršík, K. Žižka, M. Češka), and thus quality handball players there is no shortage of own hatchery.

"The Black Angels are not only the most successful Czech women's handball team of present days, but also a successful brand, thanks to which they succeed in spreading the good name not only of the sport, but Czech north-west region in general."

MARKETING AND MEDIA

“The Black Angels... a successful brand, thanks to which spreading the good name not only of sports, but whole region in general, both here and abroad.”

“The Black Angels” was actually such a first marketing act and I think it paid off, because today no one calls us anything else than The Black Angels.

Gradually, other marketing and advertising campaigns were rolled out, and as the quality of bridge handball increased, so did the interest in advertising from companies in the region. Today, Černí anděle is an established and high-quality brand, and I think that cooperation with the handball club in Most pays off for our sponsors.

The Black Angels can be seen on the Internet, TV and not only domestic ones!

We are a strong player in the field of marketing...

- ★ we are a major medial point for our partners
- ★ we are expanding our fan base
- ★ we spread awareness about handball

We plan to increase our medial reach by at least 30% every year

#WEARETHEBLACKANGELS

Buy your player!

We have been offering our partners/ companies the opportunity to “buy your player” for several seasons now. In this way, each of the players has her own “personal” sponsor, whose logo she wears exclusively on her jersey.

Our players communicate with individual sponsors in person or electronically, letting them know about the results of the match and their personal achievements. They participate in corporate events of individual partners, the club presents itself at balls, at events for children, where together with partners we can organize a program for children, we can prepare autographs, etc.

We also welcome our partners to every match of The Black Angels...

We offer our partners the already mentioned “Buy your player” event and the related matters, i.e. advertising on the jersey of a specific player, advertising in the sports hall at every home match of the MOL League, advertising on the club’s website and social networks, in bulletins published on every home match, as well as a year-round VIP ticket for the Black Angels matches for two people. Of course, there are many more benefits and

possibilities, all resulting from an individual agreement between the club and whoever decides to support the club. For example, we are now launching the Match Sponsor event, when one of our partner companies becomes a match sponsor and, in addition to advertising in bulletins, can present its products or services at a specific match.
